## City of Canandaigua Gateway Community Power Electricity Supply Program in Our City

### What is CCA?

Community Choice Aggregation (CCA), is a state enabled program, which offers residents and small businesses the opportunity to receive more attractive electricity supply terms through the bargaining power of aggregation (group purchasing).

### What is the Municipality's Role?

The City enabled CCA through a local law and selected a program administrator.

### Who is the CCA Administrator?

Joule Community Power, a division of Joule Assets, who has been authorized by the state to administer CCA programs in New York.

### Does this program replace my utility company?

No, RGE will still be responsible for billing and responding to power outages.

### Can I participate if I already have rooftop solar or community solar or hydro?

Yes, you can participate!

### How will my bill look?

You will still receive one bill from RGE, but the supply section of your bill will show the name of the alternative supplier/CCA Administrator.

### What is Opt-Out Enrollment?

Opt-out enrollment means that you will automatically be enrolled to participate in the CCA program unless you are already receiving supply service from an alternative supplier, have a block on your account, or take action to opt-out of the program. There is no fee or penalty for opting out. Not sure if you'll be automatically enrolled? Contact us!
